

A hand is shown reaching towards a lamp. The lamp has a dark brown, conical shade and a matching stem and base. The background is white with various botanical illustrations in shades of green, orange, and red, including roses, dahlias, and clusters of berries. A pink square in the top right corner contains the brand name.

Poldina Pro *lampe-à-porter*

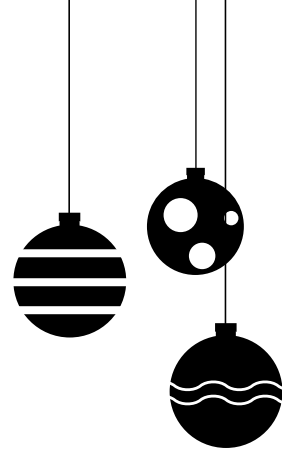

Poldina Pro è la lampada da tavolo ricaricabile che integra la versione base di Poldina, con alcune specifiche funzionalità pensate per l'utilizzo nell'Ho.Re.Ca. È dotata di base di ricarica a contatto, singola o multipla (massimo 6 unità), per facilitare e velocizzare l'operazione di ricarica, soprattutto nel caso di una considerevole quantità di lampade, come frequentemente accade nella ricettività e nella ristorazione. La lampada ha un grado di protezione IP54 (completamente assemblata) e pertanto utilizzabile per interni ed esterni, ad eccezione dei modelli con finitura a foglia metallica, indicati solo per uso interno. Due le versioni di funzionalità: con base di ricarica a contatto inclusa o esclusa.

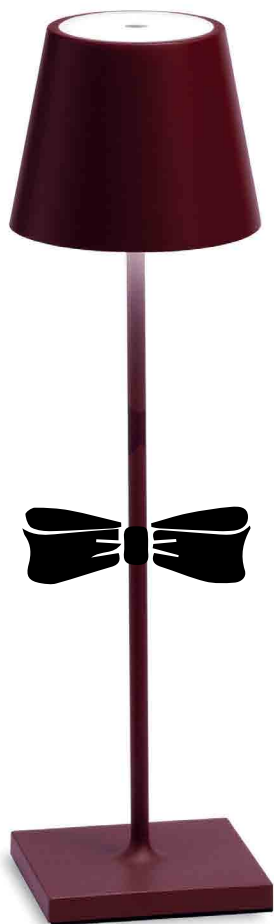

Poldina Pro is the rechargeable table lamp that complements the basic version of Poldina, offering some specific functions designed for use in the Ho.Re.Ca. sector. Poldina Pro has a single or multi-contact charging base (maximum 6 units) to facilitate and speed up charging, especially when a considerable number of lamps are used, as frequently occurs in the hospitality and catering sectors. The lamp has IP54 protection (entirely assembled) and therefore can be used indoors and outdoors, except for the versions with a metallic leaf finish that are only suitable for indoor use. Two versions are available: with or without a contact charging base.
